Accessibility Action Plan 2026-2029

Ratified by the Governing Body: May 2026

Review date: May 2029

Introduction

This plan has been guided by Schedule 10, relating to Disability, of the Equality Act 2010 and the principles of the Disability Discrimination Act 1995 (DDA) as amended by the SEN and Disability Act 2001.

Definition of Disability: Disability is defined by the Equality Act 2010: "A person has a disability if he or she has a physical or mental impairment that has substantial and long-term adverse effect on his or her ability to carry out normal day to day activities." Physical or mental impairment includes sensory impairments and also hidden impairments. In the DDA substantial means 'more than minor or trivial'. Long term means 'has lasted or is likely to last more than twelve months'.

The Federation recognises its duty under the DDA (as amended by the SENDA):

- not to discriminate against disabled pupils in their admissions and exclusions, and provision of education and associated services
- not to treat disabled pupils less favourably
- to take reasonable steps to avoid putting disabled pupils at a substantial disadvantage
- to publish an Accessibility Plan.

Key Aims

For pupils, and prospective pupils, staff, parents/carers and visitors with a disability:

- To reduce and eliminate barriers to participation/access in the school curriculum
- To improve and maintain access to the physical environment
- To improve the delivery of information to disabled pupils, parents and visitors

Current good practice a) Curriculum

The Federation seeks and follows the advice of LA services, such as specialist teacher advisers and SEN inspectors/advisers, and of appropriate health professionals from the local NHS Trusts to ensure we maximise pupils' learning opportunities and experiences. The school works

closely with parents and professionals before pupils enter school to ensure specialist expertise and resources are in place. The Federation promotes and supports effective teaching with active and participative learning for all pupils alongside placing a high value on developing self-esteem and ensuring that learning for all takes place in a stimulating, purposeful and creative environment. The school curriculum is broad, rich and innovative and is responsive to the different learning needs of pupils and delivers their entitlement to high quality learning. All pupils are supported to overcome barriers to learning. All extra curriculum activities are available to all pupils. **b) Physical environment**

The Federation building are more than 30 years old and on one level.

The Federation takes account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises, such as improved access, lighting, acoustic treatment and colour schemes, and more accessible facilities and fittings.

c) Provision of information

The Federation makes itself aware of local services, including those provided through the LA, for providing information in alternative formats when required or requested.

The overall responsibility for the school's accessibility plan lies with the Governing Body, but improving access for pupils with disabilities requires everyone at the school to understand the duties in the DDA and apply this knowledge in their own area of responsibility.

The Accessibility Plan should be read in conjunction with the following policies, strategies and documents:

- Federation Website
- Equality Policy
- Health and Safety Policy
- Special Educational Needs Policy
- Child Protection Policy
- Safeguarding Policy

- The Equality Act 2010 and schools, Departmental advice for school leaders, school staff, governing bodies and local authorities, May 2014

This Policy is reviewed yearly by Leadership and Governors, and a new plan produced every three years.
